Thursday, 14 June 2007

Richard Scott Salon and Day Spa, Westchester's premiere salon and day spa, today announced that it will open its doors after a devastating fire destroyed a portion of the facility on January 20, 2007. The 7,000-square-foot Richard Scott Salon and Day Spa will officially reopen on June 26, 2007 at 15-17 South Moger Avenue, Mt. Kisco.

While displaced from the fire, Richard Scott employees were welcomed by local salons, enabling them to continue serving their clientele. The salons include the Zazo Salon, Kids Style and Adam and Eve in Bedford Hills, as well as Salon Elle in Mt. Kisco. The day spa staff was graciously hosted by the Saw Mill Club in Mt. Kisco. Not only did nearby stores provide space and equipment for Richard Scott's staff, but because of their immediate response and unwavering support, Richard Scott employees missed only one day of work after the fire.

To commemorate its grand reopening and to thank their neighbors, a private invitation-only event will be held at the salon later this month. To thank the greater Westchester community, Richard Scott Salon and Day Spa will plant two Bradford pear trees, one in Shoppers Park and another in the promenade alongside South Moger Avenue, to benefit the Mt. Kisco Beautification Committee.

"We would like to thank our gracious neighbors and our loyal clients. This event is also a tribute to the brave volunteer firefighters at the Mt. Kisco Fire Department, as well as the many other fire departments across Westchester who responded to the call," said Ricky Mason and Joseph Norris, salon owners, Richard Scott Salon and Day Spa.

The new design of the salon and day spa offers a more spacious and updated layout. Walls were removed to open up the nail and reception areas. A fourth pedicure chair, convenience sink, and courtesy telephone were also added to the nail department, which now provides a flat panel television to each pair of pedicure stations. Flat panel televisions are also located in the high-tech color department, lounge area, and spacious cutting area. A private reception area has been added to the day spa for easy check-in and check-out, and a new couples massage room has been added for special occasions. Clients can relax in the new lounge area on large, plush chairs or a sofa while sipping coffee, tea or cappuccino. Additional design features include a more accessible, updated salon reception desk; inviting coffee nook; expanded gift boutique; and new wax rooms.

The Richard Scott Salon & Day Spa family of services includes the salon, which provides hair replacement, haircutting and styling, color enhancement, permanent wave, thermal relaxing, waxing, manicures and pedicures; the spa, under the new leadership of Tamara Weinsten and Julianne Foley, offers massages, body treatments, facial treatments, microdermabrasion and "Mystic" spray on tanning; and the KathrynEllen Professional Make-Up Studio, which provides professional make-up application for every day and special occasions as well as make-up classes. It also has a boutique that sells a wide variety of beauty items and fashion accessories.
